NUMB. 2334

WEDNESDAY, DECEMBER 15. 1742.

Yesterday arriv'd a Mail from Holland.

Constantinople, Dec. 29.

FAIRS between our Court and that of Persia stand much as they did. We suspect very much the Sincerity of Kuli Khan's Proposals, and are therefore in no great Hurry to send him any Answer. It appears plainly to us, that he only waits till he has by degrees appeas'd the Troubles that have risen in his own Empire, and will then draw down the whole Force of it upon ours. This appears the more probable, since upon subduing the Lezghis he has begun to build strong Fortresses in all the Passes near the Caspian Sea, and has actually caused a great Part of his Army to desiccate towards Georgia, with Intent, as we apprehend, that they may be ready to attack our Frontiers as soon as the Seafon will permit. The Grand Vizir finds himself oblig'd by these Measures to preserve the strictest Regard for the several Treaties made with Christian Princes. He has particularly sent Instructions to the Cham of the Crim Tartars, enjoining him to take care that none of the Russians inhabiting the Frontiers have any Occasion given them of Complaint, the Port having firmly resolved to maintain an inviolable Friendship with that Empire. M. Faulkner the English Minister will very speedily set out on his Return home.

Moscow, Nov. 20. The News of the Duke of Holstein being elected Successor to the Crown of Sweden has produced most surprizing Changes here. His Royal Highness, by his courteous and obliging Behaviour both here and at Petersburgh, had entirely united the kind Wishes of the Empress and her Subjects in his Favour, insomuch that he was look'd upon as the Successor before he was declar'd so. When her Imperial Majesty had once taken the Resolution of proceeding to this Step, she summon'd an extraordinary Council, wherein she proposed it, and wherein it was approved by all who were present. His Royal Highness was then acquainted with the Terms upon which he was to receive that Dignity, viz. Embracing the Greek Religion, and Disclaiming all Pretensions to any other Crown. As to the first, upon proper Instructions given him, he has complied to the universal Satisfaction of the Clergy; and he has now likewise determined as to the second, but whether as has been heretofore suggested he will transfer his Interest to his Uncle the Bishop of Lubeck, or to Prince Frederick of Hesse Cassel, in compliance to the Kings of Great Britain and Sweden, is what as yet cannot be certainly known, but will soon however be no Secret. It is certain, that as soon as the Affair of Courland is over, the Empress will march a formidable Army into Germany, which will put an end to the Disputes there, and settle the Peace of Europe and the Balance of Power out of the Reach of French Practices.

Hamburg, Dec. 14. Things grow daily more and more confused in Sweden, great Heats have risen in the Diet concerning the Deputation that was to be sent to the Duke of Holstein. The Peasants insisted, that it should consist of all the four Orders, whereas the Clergy vehemently opposed this; and, according to Letters from Stockholm dated the 4th Instant, it is become extremely doubtful whether any Deputation will be sent at all.

Florence, Dec. 1. The Austrian Troops that were advanced as far as Poretta, and which we apprehended were to have entered into and defended this State, are suddenly retired; and as there have been lately Couriers continually coming and going between Prince Craon, Marshal Trun and the Count de Gages, we apprehend the Spaniards have also renounced their Design of disturbing the Peace of this Duchy.

Correggio, Dec. 2. The Sardinian Troops have quitted the Pango, in order to take Winter Quarters in the Duchies of Parma and Placentia. As soon as they were withdrawn the Austrian Forces extended themselves through their old Quarters, and establish'd their Head Quarters at Carpi. Two Piedmontese Battalions are still at Modena.

Bologna, Dec. 4. The Spaniards, to shew they are not altogether so intractable as some would represent them, have immediately resolved to follow the good Example set them by the Austrians, and have already sent several Regiments into Romagna to take Winter Quarters there, and others it is said are to march into the Country of Ferrara.

Genoa, Dec. 12. The last Letters from the Camp at Barraux inform us, that the Count de Glimes had recalled most of his Detachments, and had ordered the Work-

men to abandon the new Road at Seissel on which they have been so long at work. Letters from the Head Quarters at Montmilian dated the 7th say, that 8000 of the new-rais'd Troops in Savoy had already join'd the King of Sardinia's Army, and that his Majesty had caused some Regiments of Foot and Dragoons, which had been exposed to great Sufferings during the present rigorous Session, to be evan'd. In a Postscript to a private Letter from that Camp it is said, that the Spaniards have received all their Recruits, and that as things then stood, a Battle was thought unavoidable.

Vienna, Dec. 5. Sir Thomas Robinson, the British Minister at this Court, having been appointed a Knight of the Bath by the King his Master, and his Majesty having desired that the Duke of Lorrain would invest him with that Order, his Royal Highness has been pleased to appoint the 8th instant, which is his own Birthday, for the Performance of that Solemnity. The Night before last a Courier arrived very late at the House of the Saxon Minister, who the next Morning demanded an Audience of her Majesty, in which he communicated to her the Contents of his Dispatches. These remain an impenetrable Secret, but this is certain, that the Queen appeared with unusual Gaiety when she came out of her Closet. Col. Mentzel is lately promoted to the Rank of Major-General, and has her Majesty's Commission to raise a new Regiment of Hussars, which it is said will consist of 2500 Men, all dress'd in Black. Forty thousand Sabres are making here for the Hungarian Troops, and this Morning a great Convoy of Provisions and Forage of all Sorts passed by this City for our Army.

Ratisbon, Dec. 13. A Report has prevailed here currently for several Days, that the Austrians had lost above 2000 Men in Three desperate Assauts on the Town of Braunau, which had obliged them to retire with great Precipitation. Yet all the Letters we received Yesterday from those Parts unanimously agree, that the Town capitulated on the 8th in the Evening, and that the Garrison, which consisted mostly of Militia, marched out on the 9th in the Morning, with all the Honours of War. The Austrians as soon as they had taken Possession of the Place, put into it a strong Garrison of their best Troops, and labour'd assiduously to repair the Breaches they had just made. Field-Marshal Seckendorff has thought proper to withdraw the Detachments which he had sent into the Territories of Salzburg, and is marched with all his Army to Eggenfeld.

P. S. The Commanding Officer at Stadtamhoff has this Moment received Orders to add a new Retrenchment to the Fortifications that have been already made there.

Hague, Dec. 19. The States of this Province continued their Sessions Yesterday. The Day before, the Council of State in a Body waited on the Assembly of the States-General, and presented them with the State of War for the Year 1743. Upon that Occasion the Right Hon. Baron Lubertus Adolphus Van Torck, Lord of Rosendell, President of that Council, made a very fine Speech, which was answered by Mr. William Van Haren who presided for that Week in the Assembly of their High Mightinesses.

H O M E P O R T S.

Deal, Dec. 13. Wind E. by N. Came down Yesterday after Post, and sail'd thro' without stopping, the Peggy, Cunningham, for New England, the Ann, Marshall, for Jamaica, and the Priscilla, Carter, for Barbados. Arrived this Morning the Serpent Bomb from a Cruize, and is under Sail for the Westward. Remains the Lion Transport, for Portsmouth.

Gravesend, Dec. 13. Pass'd by the West, Gilby, and the Dunkirk, Smith, both from Dunkirk.

Arrived

At Lisbon, the Catherine, Perry, the Lynn, Rossiter, the Antelope, Morris, and the James and Elizabeth, Norcomb, all from London.

At Oporto, the Dolphin, Leclaris, from Newfoundland.

L O N D O N .

The Deputies appointed to go and notify to the Duke of Holstein his being chosen Successor to the Crown of Sweden, proposed to set out from Stockholm on the 24th ult. if the Wind permitted, on board a Ship which lay ready for them, and is to transport them directly to Revel. The Instructions given these Deputies by the States, are said to consist chiefly in the three following Points.

I. To desire the Duke, if he accepts the Offer made him, that he will maintain the Religion as it is establish'd in that Kingdom.

II. That he will oblige himself not to think of making

any Alteration in their present Form of Government, but let it subsist upon the same Foot it now is.

III. In order to the Duke's being instructed in the Laws and Manners of that Kingdom, to desire his Highness to come and make his Residence there.

They write from Copenhagen of the 11th N. S. that an Imperial Ship belonging to the Swedes is arriv'd there in a miserable Condition, and one of their Men of War, very much weather-beaten, lies not far from Kluge; that by all Accounts from the Baltic they have lost a 50 Gun Ship, if not two, in the late Storm on the Coast of Bornholm; and, that the Dutch Men of War, who were then sailed homewards, had narrowly escaped, having been terribly tossed for 20 Days together.

Marshal Bellisle having ordered his Officers to sell their heaviest Baggage, and to furnish Stockings and Shoes to the Soldiers, twas apprehended at Vienna that he meditated some desperate Attempt.

Private Letters from Hanover, dated Dec. 14. inform us, that Mr. Villiers, his Majesty's Minister at the Court of Saxony, was come thither from Dresden in the Evening of the 12th, and went immediately to the House of Baron Munchausen, principal Minister of State, that the said Minister returned the Visit next Morning, and had a long Conference with Mr. Villiers. Several other Foreign Ministers are daily expected, and a kind of Congress is to be held, in order to the taking proper Measures for securing the Repose of Germany, and settling the Balance of Power in Europe.

We are informed by Letters of a fresh Date from Ratisbon, that the Officers commanding in Chief the Bodies of Palatine and Hessian Troops in the Imperial Service have signified, That they cannot enter any Part of the Queen of Hungary's Territories; and that if this be insisted on, they must quit the Service immediately, and return into the Dominions of their respective Masters.

It may be depended on, that the Governor of Strasbourg has received express Orders from his Court, not to suffer any Officers from the Armies in Bohemia or Bavaria to continue their Journey into France, even supposing they should bring with them Passports from their Generals; but in such case he is to oblige them to return, and to furnish them with Passports necessary for that purpose. But if they come to Strasbourg without Passports and Dismissions from their Generals, he is immediately to put them in Arrest, and to give notice to the Secretary at War, and to Marshal Broglie.

Yesterday the Court of Aldermen unanimously made choice of Mr. Sergeant Urbin to be Recorder of this City, in the room of Sir John Strange who had resign'd that Office.

Yesterday at the Court of Admiralty at the Old Baily, Thomas Rounce was found Guilty of High Treason, in serving on board two Spanish Privateers, one of which took the Industry, Capt. Smith, and the other the Hare, Capt. Goodwin.

The Right Hon. the Lords Commissioners of the Treasury have appointed Mr. Sheen Saverd to be one of the principal Messengers of the Treasury, in the room of Mr. Oswald deceased.

Yesterday Morning died Miss Dawson, Daughter of the late Mr. Dawson an eminent Warehouseman in Gracechurch-street who died a few Days since.

The same Day several Persons seating on the Canal in the Park were heartily duck'd by the breaking of the Ice.

The Frost having continued so violent for some Days past, the Navigation of the Thames is said to be thereby very much interrupted in several Places above Bridge.

We hear a List is collecting in order to be printed and published, of the several Retailers of Coals who have exorbitantly hoisted upon the Poor the Price of that Commodity since the Commencement of the Frost.

Last Night several Physicians set out for the Seat of her Grace the Duchess of Kent at Old Windsor, where her Grace lies dangerously ill.

The Books of his Majesty's Fireship the Scipio are sent to Plymouth, to pay the Wages due to her Company down to the 30th of June, 1741.

The Books of his Majesty's Ship the Jersey are also sent to Plymouth, to pay the Wages due to the Men to the time of their being removed into the Nonsuch.

On Friday next the Right Rev. Dr. Willes will be confirmed at Bow-Church, Cheapside, with the usual Formality, into the Bishopric of St. David's, vacant by the Translation of the Right Rev. Dr. Nicholas Clagget to the See of Exeter.

From the London Gazette.

Whitehall, Dec. 13. The King has been pleased to constitute and appoint Edward Falkingham, Esq; to be one of the Commissioners, in quality of a principal Officer,

of his Majesty's Navy, for the Naval Affairs in the Mediterranean; and to reside either at Port Mahon or Gibraltar, as the Circumstances of Affairs may require, and according to such Directions as his Majesty shall give him for that Purpose.

The King has been pleased to constitute and appoint George Lucas, Esq; to be Lieutenant Governor of his Majesty's Island of Antego in America, in the room of Edward Byam, Esq; deceased.

A Scandalous Paper having been lately publish'd in several News-papers, in the Name of the Burgesses and Inhabitants of the City and Liberty of Westminster, address'd to the Right Hon. the Lord Viscount Percival and Charles Edwin, Esq; their Representatives in Parliament, which Paper contains Matter of a very Dangerous and Criminal Nature, and has manifest Tendency to excite Disturbances in this Kingdom, by appealing from the Legislature to the People, and in plain and express Terms threatening popular Commotions; it is thought proper to acquaint the Publick, That the publishing the same under the Names of the Burgesses and Inhabitants of the City and Liberty of Westminster, as aforesaid, is an infamous Forgery, and a gross and impudent Impostion on their worthy Representatives, for that there never was any Convention of the Burgesses and Inhabitants of the said City and Liberty in their Burgesse-court, to prepare or approve the said Paper, or any other Paper of the same Kind or Import whatever, which it was absolutely necessary there should have been to have made it their Act, or to have warranted the Printing and Publishing it under their Names: But, on the contrary, the said Paper, having been drawn up in a private and clandestine Manner, was produc'd, ready-prepar'd, at a Tavern-Meeting of a few low inconsiderable People, pack'd together for that Purpose, without any Authority or legal Summons for so doing, where there were but Two Burgesses and Two Assistants present out of Thirty-two Burgesses and Assistants of whom the Burgesse-court consists, and not One hundred and fifty Inhabitants out of at least Ten thousand who have a Right of voting for Members of Parliament for Westminster; Besides which, it is notoriously known, that the principal Authors and Contrivers of this Daring and Outrageous Insult upon his Majesty and his Parliament, are Men of desperate Fortunes and abandon'd Characters, the Promoters and Ring-leaders of all kind of Riot and Disorder, and who have no other Shelter or Resource left, but in Popular Commotions and Publick Confusion.
